RUSSELL YOUNG

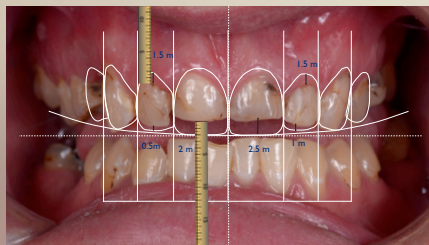

Certified Digital Smile Design Master & Instructor

With over 40 years of experience, Russell has dedicated his time developing his skills as a world class dental prosthetist, master ceramist and founding partner of the Omega Ceramics Dental Laboratory.

Through constant innovation, Russell has worked tirelessly to diversify the dental landscape bringing the frontiers of Dental technology to Australia. In 2007, Russell established a foothold in the Australian dental market as the only official All-ON-4 Malo dental laboratory in Australasia.

Following the pulse of dental advancement, in 2013, Russell teamed up with Dr Christian Coachman to bring Digital Smile Design to Australia. As a DSD Master and Certified DSD Instructor, Russell currently strives to establish the concept of Smile Design in the Australian and World market through his passion and educational platforms.

Introducing Digital Smile Design Online

'Bringing Emotional Dentistry to Australia'

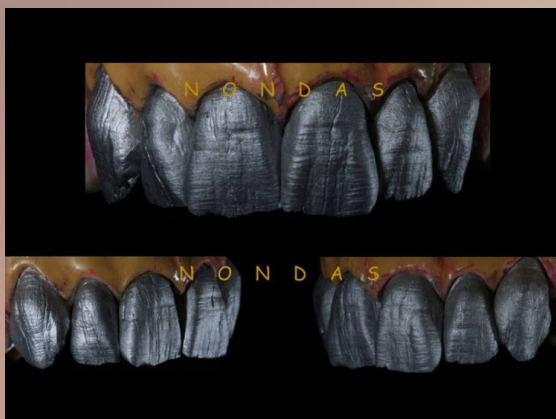

NONDAS VLACHOPOULOS

Coming to Australia for the First Time!

Nondas is an internationally renowned master dental technician. He continues to inspire people in the industry through his teachings and courses. Over the past 4 years, Nondas has travelled the globe extensively, spreading his knowledge from continent to continent, leaving a trail of happy, driven and super inspired dental technicians behind him.

His love for the art and science of dental technology is witnessed and admired at his courses, and recently undertaking the most challenging of tasks, the "Live Patient Case", which leaves participants wondering "what just happened", and words to the effect of "how the hell can he do that in just one bake and nail it!".

People leave Nondas' courses with an overdose of knowledge and the inspiration and determination to strive for excellence.

TWO DAY PROGRAMME

A Hands-On Workshop with a Live Patient Demo

Course Description

Ivoclar Vivadent is proud to bring to Australia one of the world's greatest ceramists: Nondas Vlachopoulos from Greece!

This course is a must for all clinicians and technicians. Two intensive full days with a live demo 2-day exclusive hands-on workshop. 'IPS e.max® to the Max' with Nondas Vlachopoulos and 'Digital Smile Design, 2D - 3D Digital workflow in the 21st Century using e.max' with Russell Young.

A great opportunity to see and learn from two of the great master ceramists!

Learning Objectives

- Participants will learn and be inspired by Nondas Vlachopoulos with his secrets to IPS e.max in layering techniques, shaping teeth, texture, painting techniques, colour and design in e.max Veneer and Crown restorations.

- Nondas will demonstrate, discuss and analyze with participants a selection of Ceramic powders, then build-up to the final result. With live shade taking, crown construction and case planning on a live patient. This course will teach you how to create the most amazing aesthetics using e.max + Power Dentin + Enamels.

- Participants will also learn from Russell, as he will highlight the latest in photography and videography essentials, 2D implementation and introducing 3D to the Lab or Dental Practice.

- Learn how to motivate dentist/lab and your patients to plan your aesthetic cases. They will guide you in achieving your highest potential as dental ceramist.
